CONDADO de ALHAMA

The apartments at Jardines de Alhama sit on an abundant garden on which the homes, set in parks, are integrated as part of the garden itself. This is a pedestrianised resort, created to enjoy a wide variety of plants, with cycle lanes and a huge area for walking and living with nature. What's more, in the central part of each park, there is a swimming pool integrated naturally into its surroundings, with sections for toddlers to play in total safety, meaning peace of mind for the parents.

In the centre of the Resort, there is a sports complex with tennis courts, basketball, paddle tennis and football so you can enjoy your free time and live a healthy life. A sports boulevard to take you through to the services of the Foro.

The homes in Jardines de Alhama are of a traditional Mediterranean architecture with pretty two-storey white houses set among the gardens.

The ground floor of the apartments have a large terrace leading on to the gardens, which allows for privacy in the home while also running into the surrounding gardens of the area. The top floors also have a terrace and a spacious sundeck.

Jardines de Alhama will boast various different swimming pools situated in the centre of the parks.

Please bear in mind that the "Condado de Alhama" set of resorts is a project of great scope which is planned to be executed over several years. Likewise, its urban development will be progressive and is being processed in phases. In this respect, we wish to inform you that the land lots where the "Cortijos de Alhama" and "Jardines de Alhama" resorts, and the Jack Nicklaus Signature golf course associated with them, as well as the "Oasis" leisure complex, are located on LAND LOTS CLASSIFIED AS DEVELOPABLE LAND ZONED FOR RESIDENTIAL USE IN THE CURRENT ALHAMA DE MURCIA GENERAL URBAN ZONING PLAN. On the other hand, the land lots constituting the site for the two Bear Best golf courses and part of the residential lots associated with them, are pending reclassification for zoning purposes so that they can be converted into developable land lots in accordance with the future General Urban Zoning Plan of the Municipality of Alhama de Murcia, which is currently in the preparation phase. In any event, please do not hesitate to contact us for any information on the present and future zoning status of these land lots.
